This curriculum is designed to assist multi-disciplinary criminal justice teams in establishing or enhancing truly collaborative relationships, and draws on both theory and practice in the areas of teamwork, group dynamics, adult learning theory, and organizational development. The curriculum is designed for a 3-day interactive workshop that combines plenary sessions with teamwork exercises specifically developed to assist groups in evaluating their effectiveness and building their potential as a highly functioning team. The curriculum includes lecture content, instructions for trainers, participant materials, slides, handouts, and teamwork exercises.
